**MEDIA ANNOUNCEMENT
10 DECEMBER 2007**

ASG Secures Contract with ACT Government

IT services provider ASG Group (ASX: ASZ) is pleased to announce that it has been contracted to deliver the Oracle Financials re-implementation project for the ACT Government.

ASG will provide system implementation and integration services to the Government's Shared Services Centre, whose function is to provide processing and tactical services to ACT Government agencies.

As part of the contract, ASG will manage the consolidation of 9 Oracle financial applications systems into one instance to deliver the common business processes required by the Shared Services Centre.

The contract of engagement is for a 2 year period with an initial estimated value of \$2 million for delivery by 1 July 2008.

The ACT Government contract follows a number of significant projects secured by ASG in 2007 including contracts with the WA Department of Corrective Services (DCS), the Victorian Department of Education and the Victorian Metropolitan Ambulance Service.

ASG Region Manager, Richard Everett said, he was thrilled to have secured the contract with the ACT Government.

"This is an important project for the Territory and we are very pleased to be able to assist in providing high quality, cost efficient services to ACT taxpayers," said Mr Everett.

"This project is similar to what we are currently undertaking for the WA Government's Shared Corporate Services project to drive productivity and efficiency gains for the state's government agencies, leveraging tangible returns.

"We look forward to continuing our relationship with ACT Government and to providing significant value as it works towards an improvement of its back office systems."
