

ASG Group Limited

Environmental Management Policy

ASG Group Limited (ASG) is committed to making reasonable efforts to operate in an environmentally responsible manner by preventing pollution, reducing waste and our use of energy and resources as far as practicable and by seeking to re-use and recycle materials wherever possible.

We are committed to comply with all relevant Commonwealth and State and Territory legislation and with the Commonwealth Government's environmental policies and initiatives.

We have implemented a company-wide Environmental Management System (EMS), that allows environmental impacts to be identified and managed.

The ASG EMS will be managed and maintained to meet the requirements for certification to the International Standard for Environmental Management Systems, ISO 14001:2004

We are committed to providing an environmentally sound workplace and implement environmentally sound work practices.

We work closely with our employees, customers and suppliers to develop and implement environmental programs including establishing appropriate environmental objectives and targets. We will measure, monitor and report on our performance against our objectives and targets and we will strive to continuously improve our EMS.

We will continually promote awareness and understanding of and responsibility for environmental issues within ASG and ensure all staff are informed and aware of their roles in implementing our environmental policy. ASG includes environmental considerations in all aspects of corporate strategic planning and in all purchasing decisions.

We have developed a balanced approach designed to meet the needs of the business, while allowing it to fulfil its' environmental responsibilities.

This policy is available on both the ASG staff intranet and publicly, on the ASG web site. (www.asggroup.com.au).

All ASG staff are responsible for environmental performance in their areas of work.
