ASG APPOINTMENT TO DRIVE FOCUS ON HEALTH SECTOR

IT services provider **ASG Group (ASX: ASZ)** is pleased to announce the appointment of Michael Storey to the position of National Health Program Manager.

Based at ASG's Melbourne office, Mr Storey will be responsible for growing ASG's health business nationally.

ASG Managing Director Geoff Lewis said Mr Storey's appointment demonstrates ASG's focus and commitment to significantly build its capability and position in the health industry.

"Michael's appointment is part of a strategic decision to target contracts in the health sector where there is growing demand for specialised healthcare IT services that focus on improving the safety, quality and sustainability of the health sector in Australia," said Mr Lewis.

"The Australian health sector is a multi-billion dollar industry with information and communications technology playing an ever increasingly important role in the evolution of healthcare services delivery," he said.

Mr Storey brings more than 10 years of health-focused IT experience to the role.

He joins ASG from Oracle-owned BEA Systems where he was Channel Sales Executive for the Health Sector.

His experience also includes 10 years with SAP as Industry Manager-Healthcare Australia & New Zealand where he was responsible for managing the company's healthcare focus and delivery of SAP's Clinical Systems capabilities, first in a regional and then ANZ capacity.

Mr Lewis said that ASG would benefit from Mr Storey's unrivaled local and international experience in the industry.

"We are thrilled to have secured someone with such extensive experience and expertise in implementing IT services programs for the health sector," he said.

"Michael is very passionate about the health IT industry and will be an asset to the company as we target health contracts in the future."

Mr Storey's position is effective immediately.
